February 20, 2015

Dear Colleague:

A change in testing availability for EBV Panel (EBV, EBNA, EA, VCA) and Treponema is due to efficiencies with the Laboratory testing volumes. Beginning on Monday, February 23, 2015 these tests will be run on Monday's, Wednesday's and Friday's.

Any questions may be referred to me or the Chemistry Supervisor, Jodi Kelly at 301-665-4900.

Sincerely,

A handwritten signature in blue ink that reads "John G. Newby".

John G. Newby, M.D.  
Chairman, Department of Pathology  
Director of Laboratories
