

## Participant Webex Mobile Guide

### Start an e-visit

1. Go to the App Store for iOS devices, or the Google Play Store for Android.
2. Search for **Webex**. Download and install the **Cisco Webex Meetings** Video conferencing app.
3. Open the app.
4. **(If you are New to Webex and do not have an account)**  
Your doctor will send you an **e-vite** to your **MyChart** or **email account**. It will named **Join me now in my Personal Room**.

Step 1 – Select the **Join Meeting** button.

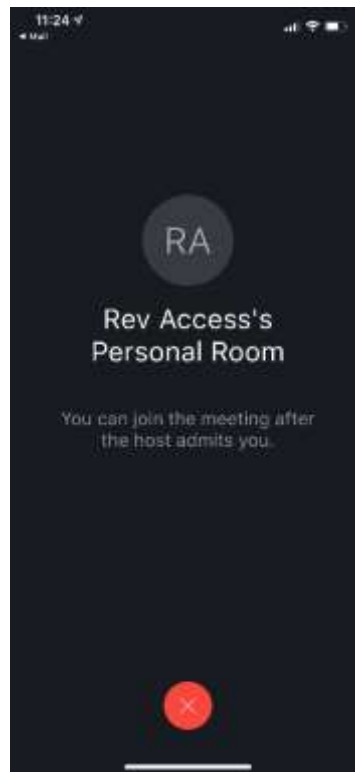

Step 2 – The **Webex app** will open to the **Personal Room, setup by your doctor**. There may be a wait in the **lobby** prior to being **admitted by the host**.

Step 3 – Once **admitted by the host, you will be able to see, hear and/or chat with them**.

Step 4 – Once finished, you can leave the meeting by clicking the **X** button.

Step 1 (email)

Step 2

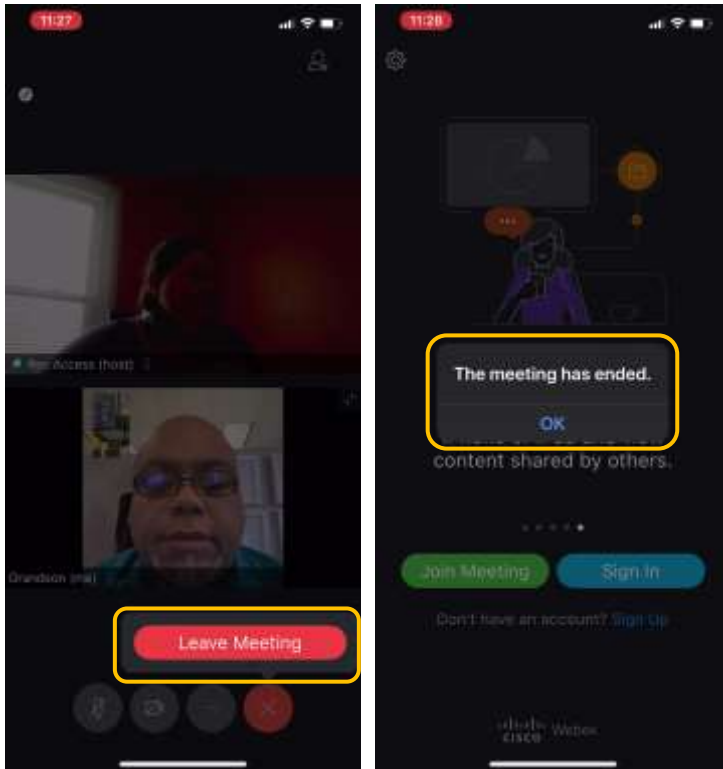

Step 3

---

**To Raise Hand:**  
Select the person icon  
on top right and  
Raise/Lower Hand.

---

- a. Microphone button – Mute/Unmute
- b. Video – Camera on/off
- c. Options button – Change settings for Chat, Audio-Only Mod.
- d. X button – Leaves Meeting

Note: If the host ends the meeting before you leave, you will be prompted with a message letting you know it has ended. Simply select **OK**.

**1. (If you already have a Webex account)**

Log in using the **email address** associated to your Webex account or what you provided to doctors office.

Step 1 – Open the Cisco Webex Meeting app.

Step 2 – Sign in using your Webex account.

Step 3 – Swipe from left to right to see pre-existing meetings you have on your calendar.

Step 4 – Select Join beside the meeting you would like to attend.
